The
Kastor Directory
FOR
1922

**Authentic Information
Upon Leading
Publications**

AS ALWAYS, throughout the many years it has been published, the Kastor Directory brings the advertiser, during 1922, the latest and most reliable facts on the circulation of leading publications.

In preparing the contents, we have gone to the most authentic sources of information, and we believe that the figures given are as near to 100 per cent accurate as it would be possible to make them.

Year after year this little book has

gone forth in its unpretentious form, and at each appearance of a new edition, the comments from men who have received it have been more than gratifying. This edition we issue with the feeling that it will be greeted even more favorably than those which have gone before, not only because it contains the late data on circulation even more completely than ever, but because it still retains its handy size which makes it convenient for desk, satchel or pocket.

What Publishers Themselves Tell You

In using the data contained in this Directory we have a suggestion to offer the advertiser in connection with the more intimate information furnished by the publishers on the advertising pages. In preparing a campaign, the advertiser must naturally have in convenient form the authentic facts relative to circulation, rates, closing dates, etc. These essentials are supplied by the Directory. In

addition, however, the further facts regarding certain markets, the detailed information concerning territorial location, environment, trade conditions, buying power, etc., is admittedly more familiar to the publisher than the advertiser. Fortunately, a large number of publishers have used the advertising pages of this Directory in helping us compile the complete data regarding their various publications. In the firm conviction that it will be of benefit in the preparation of the campaign, we urge that the advertiser take advantage of this by reading the advertisements. It goes without saying that the reliability of the statements made by these publishers is beyond question.

The Kastor Organization at Your Service

In using the data contained here, it is possible that some question might arise that is not answered by the Directory, such as specific detailed information concerning a certain publication, a newspaper, magazine, farm journal, mail order, religious, literary, trade, lodge. We want to emphasize that

whether or not such publication is advertised in this Directory, we will be glad of the opportunity to furnish an explanation or an answer if you will direct your inquiry to us. In fact, whatever the nature of your advertising problem, we would be glad to assist you in its solution. This offer is made unreservedly and you incur no obligation in acting upon it. Our consultation service has always been and always will be free to advertisers. In making an offer of this kind we feel sure that we are acting along the line of our qualifications—that whatever the advertiser's problem is, it will be familiar to us, and that we will be in a position to suggest and advise to the best advantage of the advertiser. The fact that the Kastor organization has been actively in business for twenty-seven years, and has met and handled successfully every kind of advertising problem, is the foundation of this belief.

Do They Read It?

Statistical studies of a publication's circulation are useful to the advertiser, but they can never tell the whole story of advertising value—or even half of it. For after you have found out who gets a paper, where they live, what kind of people they are, and how they happened to get it—the vital questions still remain to be answered.

Do they read it? Do they read it with genuine interest and enthusiasm? Do they read it from cover to cover? Does their interest get across the column rule into the advertising space?

Speaking of Farm Life, the answer to all those questions is Yes. For Farm Life talks about the things that interest the farmer, in the way the farmer talks about them himself. Its many splendid, heartening and optimistic features make Farm Life a pleasant visitor—an eagerly welcomed monthly guest.

This reader interest is what Farm Life has to sell. It is the soul and heart of one of the greatest advertising values in the publishing field.

Farmer Interest

It is the human interest a farm paper contains that gives the farm reader real pleasure—that makes him prefer one paper to another.

Farm Life has always been rich in the racy humor that the farmer likes—and in common sense philosophy framed in the phrases of the crossroads grocery store.

There's Kin Hubbard's character, Abe Martin. He is only one of several Farm Life features that really delight the farm reader—giving him a pleasure that the city man can seldom understand.

Like other good farm papers, Farm Life carries much competent discussion of the farmers' business problems. But it is the humanly interesting material that draws farmers back eagerly month after month, that creates a reader interest which easily crosses the column rule into the advertising space, and makes Farm Life exceptionally valuable as an advertising medium.

Fighting the Crepe Hanger

In agricultural circles the crepe hanger has been very busy the past year or two. And he has succeeded in giving many a good farmer the blues.

Farm Life fights the crepe hanger in his own way. It takes the same facts he uses and shows their brighter side. It has many features designed to stimulate laughter. It is full of hope. The whole tone in which it is written and edited is warm blooded and optimistic.

Like other people, farmers prefer the sort of writing that has a "happy ending." They like the spirit of hope, of progress—the optimism that is the mark of men who are up and coming, and have something to be optimistic about. They like Farm Life and say so.

Farm Life has 850,000 readers—distributed more evenly in every agricultural state than the circulation of any other farm paper.

U.S. Senator Medill McCormick

says:

"The future which fifteen years ago some of us predicted for The Red Book Magazine has been realized. Congratulations! The Red Book Magazine has sought to present contemporary fiction at its best. Do we not owe the best in modern American fiction — whether we speak of short stories or novels — to the stimulation which The Red Book Magazine and magazines like it have given to writers?"

INFLUENCE

COMFORT is to its
subscribers more than
a mere magazine.

It is a guide, a coun-
selor, a friend.

It helps them in their
work and in their
play.

It influences their views,
their opinions, their
very lives.

How far this is from an exaggeration you can judge by reading the following letters.

I like COMFORT as a general household paper with its various departments. I look at every advertisement every month. I have an up-to-date equipped kitchen and am always interested in new things. I believe the advertisements are the life of the paper and many a time I refer to COMFORT for articles which we buy locally or order.

—Mrs. M. W., Cullam, Alabama.

COMFORT is a perfect home magazine. All its departments are instructive and each member of the family can find something of interest to read. COMFORT stands for purer and better standards of living. Its good work and Christian readings are worth a thousand times its price. I am for COMFORT now and always.

—Mrs. W. J. C., Tahlequah, Oklahoma.

COMFORT furnishes interesting reading for the whole family. In our family one can hardly wait until the others read it. I read the household articles first, fancy work next, and the children find the stories and Uncle Charlie's column of greatest interest. I often find them absorbed in old copies of COMFORT of 10 to 12 years ago, reading them from cover to cover. Long live COMFORT.

—Mrs. L. A. R., Bonne Terre, Nevada.

Reader Confidence

An Asset to Advertisers

Since its establishment in 1854, the slogan "You can believe what you see in The Journal" has been an actual, living FACT. The reader confidence thus generated extends also to the advertising news, for questionable advertisements have never been knowingly accepted.

Because of this, the phenomenal circulation growth of The Kansas City Journal in recent months has an added significance. Especially so since this has been accomplished solely as a result of the many editorial improvements made, and without voting contests, premiums or other "stunt" inducements.

Nearly a Million and a Third Railroad Homes are Entered every month by these Magazines! Three out of every Four

railroad families read one of these publications. Railroad men earned Three Billion Seven Hundred Million dollars last year. They are the cream of the skilled workmen and intelligent, prosperous and thrifty.

Advertising in these magazines is profitable advertising—because—these are home magazines, read

by every member of the family — because — they are the kind of people you want to do business with — because — credit is unusually good, and because it puts you in direct touch with a tremendous group of possible customers.

That is why Sears Roebuck, Montgomery Ward, Hartman, Philipsborn, Spear, Strauss & Schram, Spiegel, May, Stern, Vose Piano, Sloan's Liniment, LaSalle Extension University, International Correspondence Schools, Hamilton Watch, J. M. Lyon, L. W. Sweet, Oliver Typewriter, Typewriter Emporium, The Gentlewoman, Every Day Life, Capper Publica-

tions, Household Journal, Household Guest are among a few of our year in and year out advertisers.

The record of results must back up the A. B. C. report

At every point, the technical position of *Farm and Home* is sounder than it has been in the whole forty-two years of its existence. No farm paper—state, sectional or national—makes a better showing in its A. B. C. reports.

Significant as it is, however, the A. B. C. report is only one of the two main factors which establish its usefulness as an advertising medium.

The other factor is *results*—including the *class* of advertisers for whom results are secured.

On farm equipment—including machinery, tires, automobile accessories, etc., and on merchandise bought by women—*Farm and Home* has a most consistent record of first or second places on national lists. We shall be very glad of an opportunity to give you definite facts in this connection.

Furthermore, one of the best indications of the discriminating character of *Farm and Home* readers is the fact that these records are decidedly better on good merchandise than on cheaper stuff—and here again we shall be glad to give you definite facts.

Photoplay, the dominant

GREAT MAGAZINES come into being in response to great national interests. The deeper and more widespread the interest, the greater is the magazine circulation and the more powerful its influence.

Consider this, then, of Photoplay: It is tributary to the interest in motion pictures that impels 15,000,000 people to see them daily; it inspires the country to spend \$750,000,000 on them annually and to make them the fifth largest industry in the United States.

What a richness of interest to draw upon here! — and Photoplay outstandingly the leader in the following it has earned from this audience.

triangle shown here:

FASHIONABLE DRESS is the trapezoid

Fashionable Dress

The Magazine for Milady

BETWEEN THE APEX of the extreme and the base of mediocrity, Fashionable Dress forms the trapezoid of the triangle.

There is a group of women not reached by either of the other classes of fashion magazines—discriminating women who are looking for the smart and practical combined. They are not content with the commonplace, nor do they wish the extreme. They desire exclusiveness and practicability—and they find them in the individuality of Fashionable Dress.

Fashionable Dress interprets Fashion in a practical manner. Its designs are never extreme, but always exclusive—the type that appeals to the fastidious woman.

Fashionable Dress presents the best methods of beauty culture.

Fashionable Dress continually offers the most modern ideas on home-keeping and home-furnishing.

THE BOYCE

Bought to Read When 85 per cent of a big circulation is in single copy sales, year in, year out, the only assumption must be that the papers are *bought to read*. People do not pay out even small change, week after week, for papers they do not intend to read. 30,000 agents in the small towns and villages sell the papers for cash. Their coming is an event, and their steady customers have been won on merit.

The Saturday Blade

Where Wealth is And these papers circulate in the field where the big producing classes live. In the gap between the big cities and the farms lies a huge middle ground where is found a majority of the country's population. They are home owners, merchants, doctors, bankers, teachers, skilled mechanics—the kind of people who constitute the primary market for reliable trade-marked, advertised goods.

PUBLICATIONS

Proof of Results When not only the large space advertising but even the small copy produces sales—then responsiveness is finally proved. A recent small-space advertisement in *The Saturday Blade and Chicago Ledger* produced over 7,000 inquiries and made over 4,000 actual sales. And the cost per inquiry was 4.2 cents as compared with an average of 6.3 cents for all of 13 publications used. A present large advertiser has used \$20,000 worth of space yearly for ten years. The returns each year have proven better than those of the preceding year. Ask for other result-reports.

and Chicago Ledger

Good Will These papers have won a place in their readers' hearts because their work has been constructive. For 30 years they have labored to produce public sentiment against every form of vice and in favor of every clean, constructive ideal. They have won the real good will and affection of approximately 4,000,000 regular readers.

The advertiser can make capital of this 30 years of service.

Increasing Purchasing Power

Of the sixty classes of occupations represented by the majority of readers of THE SATURDAY BLADE and CHICAGO LEDGER, public statistics show that for the most part all are showing greater earnings by 10 per cent to 60 per cent than of a short time ago. Principal among those to whom statistics do not apply—and the extent of increased earnings is not public knowledge—are the following:

4,353	47,300	4,200
Bankers	Small Town Business Men and Merchants	Hotel Owners

The nature of their business speaks for itself

Proof of the increasing purchasing power of the BLADE and LEDGER circulation, however, is not left to statistics and conjecture. The record sheets of our big mass of direct-by-mail advertising tell the story and without refutation. Advertisers who have used our columns from one to twenty-five years have experienced in 1921 one of the best, and in a majority of cases, the best year they have ever experienced with the BLADE and LEDGER.

Big space users are enthusiastic over the prospects for 1922, which look to be better even than 1921.

Small space users are voicing their approval of 1921 returns by largely increasing their schedule for 1922.

Manufacturers who distribute their products through dealers have awakened to the big opportunities and possibilities in BLADE and LEDGER circulation. Their favorable opinion of the big purchasing power represented by our circulation is expressed in yearly schedules for 1922.

THE SATURDAY BLADE and CHICAGO LEDGER hold big surprises for both readers and advertisers during the next twelve months.

Orders for definite space and insertions during 1922 will be accepted at the present rate of \$3.00 per line.

Solving the Mystery!

WHEN this man noticed that **PHYSICAL CULTURE** Magazine was carrying more advertising than any other monthly he wondered and then he thought and then he wondered some more as to the "why" of it.

He looked at the current issue and then he went back a few issues and he saw that issue after issue, **PHYSICAL CULTURE** was carrying advertising of firms that had to make each advertisement pay for itself and show a profit. He wondered no more. He said to himself quite conclusively, "Why this magazine *really* pays." And he, being wise, and about to make up a magazine list for publicity advertising of an article of wide distribution and sold through retail stores, concluded that a magazine that could so persistently get people to sign a coupon or write a letter was just the sort of a magazine that could, more easily, induce its readers to respond to his printed word and artistic appeal.

And *that's* how we got that contract and *that's* how we'll get yours, too, if you have the same sort of wisdom.

MOVIE WEEKLY

The publication that takes the Movies into the homes by the short time route

The circulation of MOVIE WEEKLY has been a continuous surprise since it was first published.

The net paid sales of the 1st issue were 72,000 copies.

Before the publication was a year old the distribution was more than 100,000 copies.

In March 1922 it reached 125,000.

But most remarkable of all, this was achieved with practically no promotion effort—just by sheer reader interest and appreciation.

This is a positive proof of the need of a publication that can give *fresh news* of the Movies because its forms close less than three weeks before copies are on sale on newsstands.

Under the stimulus of the daily newspaper advertising and other promotion efforts now in progress the circulation is bound to increase even more rapidly.

Mail Order Advertisers— Your One Big Opportunity

The New York American's plan for mail order advertising in its Sunday out-of-town edition has been a success from the start last April.

Successful, yes, only because profitable to the advertisers and made increasingly profitable because of the intensive promotion creating persistent reader interest.

The mail order advertising in the out-of-town editions of the Sunday New York American has grown to forty (40) columns a week and still growing.

The out-of-town edition, over 425,000, covers all the territory outside of 50-mile New York City Zone—going into eight states (New York, New Jersey, Connecticut, Pennsylvania, Delaware, Virginia, Maryland, West Virginia—and sixteen hundred (1600) towns—the ONLY newspaper blanketing this wide territory once a week.

The advertising rate is 50 cents an agate line flat—a four-time order will be a good test and invariably makes a satisfied advertiser.

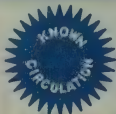

Advertise to go into these **over 425,000** homes every Sunday—it's really a great opportunity.

Become interested and write for recent copies of the mail order section—see who is advertising—form your own conclusions.

The-Sugar-Beet-Dairy Industry offers one of the greatest fields in the United States for the selling of motors, trucks, trailers and agricultural implements.

In spite of the fact that in the western states there are sufficient farms adapted to sugar beet culture to produce all the sugar consumed by us and by Europe, we are nevertheless importing over half a billion dollars of sugar annually. For this reason the Journal is campaigning for more sugar beet acreage.

The Power of One Billion Dollars

Fruit growers received one billion dollars for their 1921 crop. Their buying power is higher today than ever before in the history of the industry.

The Department of Agriculture says that fruit growers have the highest income of all the classes engaged in agriculture, both individually and per acre.

The AMERICAN FRUIT GROWER MAGAZINE covers the whole industry. It is the one and only national magazine published for commercial growers.

It makes good for advertisers. Fruit growers respond to advertising, as they themselves are advertisers.

No advertiser or agent can afford to be ignorant of the Billion Dollar Market represented by commercial fruit growers in the U. S. A.

The Dairy Farmer

WATERLOO, IOWA

Wherever there is a nucleus of farmers who are milking cows for profit, there will be found Dairy Farmer subscribers. The Dairy Farmer is found wherever men are making dairying the backbone of their farming. There are the most prosperous men—They get their income regularly—They know very accurately what they have to depend upon—Their farms are becoming richer every year—They get better money for their crops because they market them through their livestock. These are the men who have the fine, big barns, the tall silos and the group of dairy cattle in the background. These are the men who get a weekly or monthly milk check or cream check, and who are in the market for everything that the city man buys which is necessary to his comfort and happiness. When you are looking over the great farm field, consider first the dairy farmer and his guide and friend.

QUALITY—Now More Essential Than Ever

Now, more than ever, is it necessary to use quality farm papers to get the maximum results, even if you have to pay a little more for quality. Look over your proposed list and check it against the STANDARD FARM PAPERS named below—quality is apparent in their circulation, in their editorial or news matter and in their advertising columns.

If your product is one which makes farm life homier and happier or one which is a time and labor saving device which tends to increase crop yields and lower the cost of production, you will find no better field than that covered by the STANDARD FARM PAPERS.

Advertisers have found over a period of years that STANDARD FARM PAPERS reach the highest type of farmers—seasoned farmers, who, from their years of experience as tillers of the soil, are enabled to discriminate between price and quality, both in merchandise and in editorial matter.

The territory covered by this splendid medium is, in proportion to population, one of the most productive agricultural areas in the civilized world. Its population approximates 4,000,000 people. Always Amusing; Usually Clever; Often Brilliant

The new Smart Set is the best value for 35c that the news-stands offer. There is never an issue without something truly noteworthy in it—a first rate short story, a memorable novelette, a haunting piece of poetry, an essay with genuine ideas, a double dozen of epigrams that touch the spot exactly.

The cleverest writers in the world, men and women, contribute to the new Smart Set. It is constantly discovering new ones. It has probably brought out more than all other American magazines combined. It cares nothing for established reputations. It never prints the bad stuff of authors who have grown famous—and gone stale. It never buys names.

Who Reads Smart Set

The new Smart Set is not for the mob. It is not a "popular" magazine. It hasn't a circulation of a million, and never will have. Its aim is to give agreeable entertainment to the civilized minority. It tries to print the very things that one can never find in the other magazines.

Members of America's smart set—and those who would like to be. Men and women of culture and education, who are up-to-the-minute in everything that makes life worth living. This class has appreciation for the best things in life—has the money and willingness to spend it in the gratification of such desires.

Smart Set is a productive investment for the advertiser whose goods appeal to people of discrimination and the purchasing power that belongs with it.

To Advertisers and Space Buyers:

Advertisers who want to reach a good buying medium this coming season cannot fail to be interested in the eastern situation, if they have studied recent market quotations at all.

Take New York State, for instance, the farmers of which are in a far better financial condition than those of the middle western states and even in some of the far western territory. In early December shelled corn was selling through the corn belt at 23 to 28 cents per bushel, and at some places in western Nebraska and along the border of the Rockies it was as low as 17 cents to farmers. Oats in Iowa have been going for 19 and 20 cents a bushel. The corn crop was an immense one, and the diversity of our eastern producers is what has saved them.

Market statistics in the east, however, show that potatoes, eggs, chickens, apples and rye have a purchasing

power as great or better than the pre-war level. On the question of fluid milk the price is so well above the pre-war average that the purchasing power of the best dairy interests in the east is even greater than at any time in the history of dairy farming, except the two or three years at the peak of the war-time prices.

The general conditions all over the country this past year have been so spotted that thinking advertisers should look more closely to the regional papers than has generally been necessary in other years.

AMERICAN AGRICULTURIST concentrates its distribution in New York, Pennsylvania and New Jersey, where, as explained above, farming conditions are better than anywhere else in the country, with the possible exception of California.

With a circulation of 125,000, and a rate of 75c a line, the "milline" rate figures at \$6.00. No other sectional farm paper with intensive distribution, and a subscription rate of \$1.00 a year, can give you better service than AMERICAN AGRICULTURIST offers.

Deutsch-Amerikan. Farmer

LINCOLN, NEBRASKA

No farm journal in America is more closely read by its subscribers than is each issue of the Deutsch-Amerikan. Farmer. Its circulation has been obtained among the very best German reading American farm families and it is a most welcome every-week visitor in more than 125,000 of the most prosperous farm homes in the great "bread basket triangle" of the Central West.

It is carefully and specially edited by practical and successful agriculturists and its readers have long since learned that they can safely rely on the correctness and the dependability of any statements or plans outlined for improved farming methods and procedure. It is a practical farm paper in every sense of the term and it has the largest net paid-in-advance circulation of any other German language farm weekly in America.

My Business Grows from my Ad in this Magazine

That's what "Printer and Publisher" Advertisers say

Just run through this magazine and notice the ads. If you have been accustomed to do this for any length of time you will observe that many of the names are familiar. That's because they have been running continuously.

Old advertisers know the business-pulling power of the "Printer and Publisher." They have tested it out, and find bigger business and new customers are coming their way every day. One of them used the apt expression which makes a headline for this ad.

This publication is now entering its fifth year and strives for improvement in its service to the newspaper fraternity and printing interests of Nebraska, Colorado, Wyoming, Utah, Iowa, South Dakota, Kansas, Missouri and Minnesota.

HOME LIFE

ALWAYS CONSIDERED A LEADER in the mail order magazine field, Mother's Magazine and Home Life is usually first among the high-class mail order magazines that come to the minds of the advertisers and agencies when they make up their lists.

Reservations for advertising space in Mother's Magazine and Home Life are greater today than at any time in the history of the magazine.

During the year 1921 there were 463,734 new and renewal subscriptions entered on the list of Mother's Magazine and Home Life. The major part of these subscriptions were obtained from advertising which we ran in connection with our subscription work. The fact that these subscribers bought the magazine by mail would indicate they are mail order buyers.

The large mail order advertisers using Mother's Magazine and Home Life today will tell you, as they have told us, that the magazine, while always a leader among the mail order magazines, is today showing better returns than at any time since they have been using its advertising columns.

LONE SCOUT

W. D. Boyce introduced the Boy Scout movement in America. When it took on the character of a city rather than a country organization, he organized the Lone Scout movement for small town and country boys. It has developed in its members a love of hardy outdoor life, sports, and occupations, and is considered by them the greatest movement ever started for their benefit.

The LONE SCOUT directs and supports their organization. It is essentially their own paper, and is largely made up of contributions from them. And these ambitious, hardy, money-earning boys are *buyers* of things they want—from gasoline motors to pocket flashlights. The field is left open to LONE SCOUT advertisers—and the paper has proved a wonderful result producer.

Needless to say, the recent crisis, focusing interest on outdoor life, endurance and hardihood, has strongly enhanced the normally strong appeal of LONE SCOUT, and its producing powers are at their height.

Important Announcement!

Big Improvement in General Appearance of LONE SCOUT

STARTING with the issue of January 3, 1920, the "LONE SCOUT" appeared in new dress. A forty-pound book paper was substituted for the print paper we have been using since the publication was established. The reasons for this improvement in paper stock are our desire to give advertisers a better service and to satisfy the demand of our boy readers and their parents to make the "LONE SCOUT" the leader among publications appealing to boys. While the "LONE SCOUT" has reached this goal as regards editorial contents, the use of the book paper stock selected will enable us to produce a publication the appearance of which will be in keeping with the high character of its editorial contents.

LONE SCOUT

Published by the Founder of the Scout Movement in America

Present Editorial Policy to Continue

Enthusiastically Endorsed by the Boys and Their Parents

The success of the "LONE SCOUT" can be attributed largely to the editorial policy of permitting the boys to help edit their own paper. Approximately 50 per cent of the average issue is composed of contributions by the boys on various subjects of interest to each other, stories of their experiences, reports on contests and countless articles that only boys can produce and ones that every boy appreciates. The resultant appeal to the parent as well as the boy follows as a matter of course. The boy's eagerness to have his story accepted, and the parent's pride in his doing so, makes the "LONE SCOUT" of interest to all who may be interested in the boy.

To properly guide and direct the boys in their work; to aid them in living clean, healthy lives; to believe in liberty and justice for all; and to become good citizens by doing a useful thing each day—sufficient material is furnished by our editors to aid in this purpose. The result of this is a well balanced, real boys' magazine, edited by the boy, his parents and the publisher.

Advertising Rate

The advertising rate in "LONE SCOUT" is 60 cents per agate line.

The flat rate of 60 cents per agate line applies throughout. Any combination of three colors is available on the back cover and three inside pages. Orders for covers and color positions accepted in order as received. **FIRST COME, FIRST SERVED.** See rate card for detailed information.

Comparative Value of Twenty-two Principal Crops in Pacific Northwestern and Western States, 1920, 1919 and 5-Year Average

FIGURES FROM U. S. CROP REPORTS

	Total Value 1920	Total Value 1919	Aver. Value 1914-18
*Oregon	\$ 88,092,000	\$114,445,000	\$ 71,926,000
*Washington	129,498,000	204,780,000	113,974,000
*Idaho	81,202,000	113,075,000	68,637,000
Montana	71,018,000	65,112,000	86,594,000
Utah	34,072,000	38,280,000	31,855,000
*California	292,960,000	326,507,000	222,378,000
Nevada	12,449,000	14,380,000	15,514,000
Total Pacific States \$	709,291,000	\$ 876,579,000	\$ 610,878,000
Total for U. S.	8,640,575,000	13,385,784,000	8,491,610,000

While total crop values for the Pacific territory are considerably below the abnormal values of 1919, they are still above the average for the more representative five-year period of 1914-1918. The decline in the Pacific States is much less in proportion than the decline in the United States as a whole.

Farmers are standing their share of the general price decline, but as a class their buying power remains proportionately greater than that of any other industrial or business group.

*California figures do not include raisins, grapes, apricots, lemons, prunes or garden crops. Figures for Oregon, Washington and Idaho do not include prunes.

THE CAPPER FARM PRESS

*One million two hundred thousand—90%
of which is concentrated in the
world's greatest market*

The constantly upward trend in farm prices and the downward trend in prices of general commodities has resulted in a revival of confidence on the part of the Midwest farmers. Added to this the prospects of abundant crops, ample credits, an abundance of money, and above all the general solvency and high equity with corresponding high property valuation of the Midwest farmers, and you have one of the greatest potential markets to be found anywhere in the world. This market will come into its own in 1922.

The Capper Farm Press, the buyers' guide of the farmers of this great territory, is published in five sections:

Capper's Farmer	Midwest Section
Kansas Farmer and Mail & Breeze.....	Kansas Section
Missouri Ruralist.....	Missouri Section
Oklahoma Farmer.....	Oklahoma Section
Nebraska Farm Journal.....	Nebraska Section

OTHER CAPPER PUBLICATIONS

The Household is a "home-folks" magazine, appealing particularly to the women of the home. The reader interest of the women is attested by the unusual response advertisers get. There are **one and a quarter million subscribers** on rural routes and in small towns in every state in the Union.

Capper's Weekly is the only farm newspaper in the United States having more than a **half million circulation**. Approximately 84% of this is on rural routes and in towns of 2,500 population and under. Its circulation is concentrated in the great Midwestern agricultural belt of the United States.

Two Great Kansas Dailies

The Topeka Daily Capital not only goes into practically every home in the city of Topeka, but also reaches one of every ten homes in Kansas. It is distributed from every postoffice in the state and is the only morning and Sunday paper in the capital city of Kansas.

The Kansas City Kansan is published every week day afternoon and Sunday morning in the largest city of the state. It reaches four-fifths of the homes in a prosperous, industrial, progressive city of 100,000, every citizen of which is a loyal supporter.

The Indianapolis Star carried more automobile lineage in 1921 than any other Indianapolis newspaper.

The Star League of Indiana

is composed of The Indianapolis Star, The Muncie Star, The Terre Haute Star. By using equal space in all three papers, within twelve months, the advertiser saves three cents a line. In other words, each paper makes a concession of one cent a line. This applies to both display and classified.

is issued exclusively in the interest of the Daily Newspapers of America, numbering only a little over 2,500—Morning, Evening and Sunday included.

Of course every live Newspaper Publisher is a regular subscriber and careful reader. (There can obviously be no such thing as a free or complimentary list.)

But why does the National Advertiser, and the Advertising Agent, subscribe to THE FOURTH ESTATE?

The answer is very simple. Because it gives him first-hand information regarding the relative importance and standing in their communities of the various newspapers that are soliciting a share in his advertising appropriation. It tells him not only what they think of themselves, as shown in their own advertisements in THE FOURTH ESTATE week by week, but also what they think of each other, and what their local constituencies think of them.

Isn't it a simple proposition?

Isn't an Advertiser or an Advertising Agent missing many valuable opportunities if he neglects to subscribe for THE FOURTH ESTATE?

And all it costs him is FOUR DOLLARS a year. Enough said? If so, send your check to

Circulation 20,000—\$1.50 Year

Did You Know That You Could Cover Texas With One Publication?

In justice to yourself and your client, TRY IT. A taste is a test.

No other publication goes into as many Texas Homes. Bumper crops have been made and the vast oil fields have been discovered and are gushing and money is flowing. Patrons of the Harpoon believe in it, and patronize it, and those who advertise in it largely on a friendship basis.

Don't you think that it would be fair to those you represent in placing their advertising copy, to give the Harpoon a friendly trial?

A nominal rate of 4c per word charged for classified ads and \$2.50 per inch for display matter. Think of this low rate for this powerful monthly magazine that goes into the home and stays there until read by all members of the family. The Harpoon is sold on every railroad and newsstand in Texas and has gained steadily in circulation without an omission for twenty years. We have never solicited advertisements, but we are soliciting you NOW. The Harpoon has a "friendship" COMMISSION to offer you and for more thorough particulars and sample copy, please write TODAY.

STERLING-TORNER BILL DELAYED PENDING THE REORGANIZATION REPORT

The meeting of the Supreme Council of the Southern Jurisdiction of the Scottish Rite will be held at the Hotel Mayflower in Washington, D. C., on Monday, October 1, 1937. The meeting will be held in the afternoon and evening. The agenda for the meeting includes the reading of the minutes of the last meeting, the report of the Grand Master, and the election of officers for the coming year.

Thomas Wilson Rogers, Grand Master of the Southern Jurisdiction, will preside at the meeting. He will read the minutes of the last meeting and report on the work of the jurisdiction during the past year. He will also read a paper on the subject of "The Role of Masonry in the War Effort." The meeting will close with a prayer and the singing of the Masonic hymn.

The Sterling-Torner bill, which would create a new department of the Interior, has been delayed pending the report of the Reorganization Commission. The bill was introduced in the House of Representatives on July 1, 1937, and has since been referred to the Committee on the Organization of the Executive Departments of the Government. The committee is expected to report on the bill in the near future.

MOOSEHEART

The School That Trains For Life

"Every child is entitled to a high school education and a trade."—*James J. Davis.*

"If men ever work out the race's salvation it will be because a little child has lead them."

—*David Starr Jordan.*

The Great Heart of Moose where children are happy is found at Mooseheart—an estate of 1023 acres of land, 35 miles west of Chicago on the beautiful Fox River between the cities of Aurora and Batavia, Illinois. Mooseheart is the home and vocational training school for over one thousand children of deceased members of the Loyal Order of Moose, who holds title to this estate. The residential part of Mooseheart resembles a modern village of about 1200 inhabitants, fifty buildings of modern concrete, fire proof construction all under red tiled roofs. There is a central heating and power plant, large modern print shops, several industrial shops, model farm plant, high school building and many dormitories and residences. The educational features are highly vocational and practical. 22 of the most usual crafts, including agriculture, are being operated as part of the educational work.

Visit Mooseheart

Know the story of this interesting vocational institution—its purpose and the wonderful work being accomplished. Then you will understand why Moose everywhere are loyal to the advertising patrons of Mooseheart Magazine.

MAGAZINE

MOOSEHEART MAGAZINE

has a very definite purpose—it is more than a magazine to the over 600,000 men, who by their membership in the Loyal Order of Moose are housing, clothing, feeding and educating these one thousand children of deceased members.

MOOSEHEART MAGAZINE

is a monthly report to them of the affairs at Mooseheart, which is maintained at a cost considerably over one million dollars annually. It is their magazine—edited for them and their family—it is a market place for their needs and advertisers find loyal support and patronage of their copy in this unusual publication.

MOOSEHEART MAGAZINE

has made a place for itself well up on the list of hundreds of advertisers who know its value and ready response. It is well printed, well edited and deserving of your consideration and patronage.

the Pathfinder *doubled* its subscription advertising appropriation of the year before. Although production costs were at their peak, a better quality of paper was adopted and the number of pages increased by 25%; better stories and features were purchased; the editorial staff was strengthened and illustrations added. This was very expensive subscription promotion, but the building was right! *No schemes, premiums, contests or other questionable circulation aids were used.* Today the Pathfinder announces, **as against 300,000 in 1921**, a circulation exceeding

TODAY business turns to the farm population of America, confident of its strength as the stabilizing influence—confident that it will maintain its safe and sane loyalty to all American ideals—confident that, **in addition to these things**, it will maintain maximum production in the business of agriculture, without which no other business could be carried on.

The farm papers of America mold the leadership of our 50,000,000 farm population. For the voice of leadership **on the farm** speaks through these publications. It is through the agricultural press that the steady, level-headed principals and power of farm citizenship are grappling with the forces of unrest.

BETTER FARMING reaches 320,000 of the best farmers throughout the real farming districts, who buy their needs regularly, and buy as they are influenced, like all the rest of us.
